RE: Request for continued support for ACCOUNT DCARC

To Whom it May Concern:

On behalf of the Davis County Amateur Radio Club, I would like to thank XMISSION for the support you have provided to us this year. Because of your generous support, we have been able to continue to provide information to our membership, as well as to the community. Amateur Radio continues to be a vital link during emergencies, natural disasters, and communication support during local events. Over the last year, our members have participated in many activities including supporting the communication needs of our community during many special events and emergency simulations.

We would like to request continued support from XMission for webhosting for the upcoming year. The use of this service will enable us to continue to provide information to our membership and to the community regarding amateur radio and the associated events where radio communication has been requested. As required by your company, we have the XMission logo (including a link to your website) on our homepage, we include your logo in our newsletter with information that XMission is donating services to the club, and our officers give referrals to XMission when members are looking for internet, webhosting or other online services.

Included with this request is a printout of our webpage (www.dcarc.net) and a copy of our December newsletter that went out to the members and other community members this month. If you have any questions, please feel free to reach out to me, with any questions.

Thanks,

A handwritten signature in blue ink, appearing to read 'Larry Claussen', with a long horizontal flourish extending to the right.

Larry Claussen, KV7LC

As a quick reminder, our records indicate that your Club Membership status is <<Roster Status>> and expires on <<Membership Expire Dt>>. If it's time to renew you can do it by [Clicking Here](#). If you think this information is incorrect, take a look at the membership site www.hamclubonline.com

73!

Club Webmaster

Dear Club Members,

Thank you for taking the time to read the December news letter. I hope you and your family had a wonderful Thanksgiving and are excited for the upcoming Christmas holiday. The last few weeks I have been looking back on 2021 with good memories and some odd memories that I don't think I will soon forget.

Our club did some amazing things this year. We held our first ever Kids Day event, we participated in field day, had our annual swap meet and BBQ and most of all we stayed radio active. Our club has grown in membership and in our use of technology to keep us together for our club meetings. We have even gotten a little more used to the idea of wear masks when we are asked to. Our VE Team has also grown and accomplished much this year. The team has gone completely computerized including the issuing of all forms via email. Last night the VE team was successful again in helping 4 individuals get there tech ticket and 1 young man upgrading from technician to general.

Our club members continued to serve the community by way of ARES activities and weekly nets. AND even others volunteered for the Davis Cup marching band competition. I can't say enough for our club Elmers and those that have taken their time to teach license classes in Davis county. You are ALL amazing and are doing AMAZING things.

No matter where I look if radio is involved Davis County ARC members are involved. But that isn't the end of it. Our club members are actively involved in a number of other volunteer activities. Our members serve in their local church congregations, the volunteer in soup kitchens and community parties, they volunteer with the BSA and the Girl Scouts. You are EVERYWHERE doing your best to help. Our club is full of amazing people and I thank you for all that you do.

Just a handful of days ago our club lost a long time member, Mike Youngs - KK7VZ. Mike was an active Ham Radio operator who was always willing to help where he could. For many years he was the Volunteer Examiner Coordinator in Davis County. One of my first meetings with Mike was in this position. He was happy to bring a new guy into his team and he put me to work. He always greeted the volunteer and the participants warmly. There were a few times I wasn't sure who was more excited about a passed test, Mike or the person who just passed. On the occasion someone didn't pass Mike offered words of encouragement and suggestions on what to study. Anyone who knows Mike will miss him. I wish his family comfort during this time. I will include a link to Mike's obituary in this email.

Well now we get to the rest of the news of the club. Thank you for all you do and I hope to see you on Saturday, December 11th for our club meeting.

December Club Meeting!!! - Saturday, December 11, 2021

Saturday, December 11, 2021 at 10:00am we will be holding our next Club Meeting. This meeting will be held at the Davis County Sheriff's Department!!!

During our meeting we will hold club elections for 2022, demonstrate our home brew projects and give away prizes. The best part of this meeting is the home brew projects. If you have been working on something or created something new bring it down. We will give you a few minutes to show it off during the meeting.

Please be aware that the Sheriff's department has asked that we follow COVID protocols. All attending our meeting will be required to wear a facemask, social distance and if you are feeling ill please stay home. We will be streaming this meeting for those that are unable to join us at the Sheriff's office. I'll send out the link next Friday.

Obituary for Michael Youngs - KK7VZ

You can view Mike's obituary by [CLICKING HERE](#).

A viewing will be held at Russon Mortuary and Crematory, 295 North Main, Bountiful, UT from 6:00-8:00 p.m. on Sunday, December 5, 2021. Funeral services will be held on Monday, December 6, 2021, at 11:00 a.m. at the Centerville 19th Ward Chapel, 900 South 400 East, with a viewing from 9:45-10:45 a.m. Interment at Memorial Lakeview Cemetery, 1640 East Lakeview Drive. Bountiful, UT.

We Need YOUR Help!

Our club operates on Volunteers. Everything we do is to support each other in our efforts in the Ham Radio hobby. We are looking for a few individuals to support our club in the following areas/positions: Club Program Chair, Book Store help, and Community Events. If you are interested in helping in any of these areas, please let me know by sending an email to president@dcarc.net

Thanks!

The Tech Net is Back!

We would like to thank Craig Howe for his continued interest in the Tech Net! Craig has volunteered to help us out in getting the net back up and running. Craig has been very successful with the tech net including 18 participants this last Tuesday. If you have a few minutes on Tuesday nights, please check into the net and see what's going on. Tech net is at 8:00 pm on Tuesday nights using the 04 repeater.

Licensing Classes

Are you planning on teaching a licensing course in 2021 or 2022? Are you hoping the club will have the course books available for your class? If the answer is yes, please reach out to me so we can place a bulk order for our needed supplies. You can email me directly to president@dcarc.net

THANK YOU

We would like to thank the following members for renewing your membership with the club. Without you we wouldn't have a club!
