What are we doing?

The purpose of this exercise is to make as many contacts as possible using simplex operation only (no repeaters) during the contest time.

Rules

This is a portable radio contest. You can use your mobile radio (either at home or in your car) but you must be stationary. No mobile contacts

You can use any power level you choose, but you must stay on that power for the duration of the event.

You may initiate a single contact on any one frequency then you must change frequencies to initiate your next contact. The station that worked your contact may make one new contact on that frequency before changing frequencies.
